

A hospital that feels like home

Designed with children and their families in mind, UPMC's new 900,000-square-foot Children's Hospital of Pittsburgh opens Saturday.

Schematic provided by Children's Hospital of Pittsburgh

Campus buildings

A Main Hospital

- Nine floors of inpatient and outpatient care areas
- Spacious, private rooms designed with kids in mind, with overnight accommodations for parents
- 296 licensed beds, including:
 - 41-bed emergency room and trauma center
 - 79-bed Critical Care Unit, including:
 - 36-bed Pediatric Intensive Care Unit

- 12-bed Cardiac Intensive Care Unit
- 31-bed Neonatal Intensive Care Unit
- 20,000-square-foot family resource and activity center, including an atrium, a healing garden and libraries
- 13 operating suites, including six equipped with minimally invasive equipment
- State-of-the-art technology: a nursing workstation for every two patient rooms; computer and communications equipment that enhances

- communication within teams of caregivers
- Paperless information management system: Physicians place inpatient care orders electronically, eliminating handwritten and verbal orders

B John G. Rangos Sr. Research Center

- 10-story, 300,000-square-foot research facility
- Seven of its 10 stories dedicated to medical research activities
- Conference center
- Dining services
- Child care center for staff

C Plaza building

- Child care center
- Fitness center
- Family housing

D Faculty pavilion

- 130,000-square-foot building for faculty department offices

E Administrative office building

- 75,000-square-foot building for faculty and administrative offices

F Central utility plant

- Centralized utility plant serves entire 10-acre campus from one location.

G Parking garages

- (1) North garage: parking primarily for medical staff, hospital employees and visitor overflow
- (2) Mid-campus garage: Inpatient and visitor parking, second terrace garden
- (3) Underground Penn garage: Outpatient family and emergency parking

H Lawrenceville medical building

- Houses clinical and administrative offices and departments, including the child advocacy center, injury prevention, community relations, community education, behavioral health and pediatric diabetes.
