**Subject:** FW: Marcellus Shale NOV and other Actions  
**Importance:** High

Please read the directive from John Hines below. This applies to all programs. Scan or attach every such action and send it to me by email. To make this easier on us, make sure the subject heading reads MARCELLUS ACTION APPROVAL NEEDED. We will forward everything to them that they ask for until we hear otherwise.

This must include enforcement AND permits/air plan approvals. If there is a money back guarantee deadline, include that in your email.
