

RANGE RESOURCES

Dear Resident,

Since 2006, Range Resources has been actively engaged in producing natural gas from Marcellus shale wells drilled in Mt. Pleasant Township. During that time, our relationship with Township officials and some of the citizens of the Township has gone through some growing pains. While our intent has always been to be good neighbors and act in a responsible way, the actions of the Township officials have changed our view.

We have spent a great deal of time and resources in an effort to improve the way we do business. Throughout the state, Range is held up as the model for the natural gas drilling industry; everywhere, that is, except Mt. Pleasant. While we have made every effort to establish a positive and robust working relationship with your elected officials, our attempts continue to be rejected. As a result, we are sending this communication to inform you that we have revised our future long-term plans in the Township due to continuing difficulties with your Township supervisors and their unwillingness to work with us. As it stands, those revisions may prove detrimental to leaseholders.

Ultimately, we may be forced to shift activity to other, more cooperative townships. The shifting of operational activities will inevitably result in the shift of related activities, including the purchase of goods, services and food to other, more cooperative communities. We will be hosting an open meeting for Mt. Pleasant residents **April 6th at the Hickory Fire Hall, from 6-8 pm** to provide residents, landowners and business owners a more detailed layout of our plans for the coming year. In addition, we will be evaluating legal action, including federal and state courses of action. We regret any hardship this may cause you, but after months of effort on our part, we are left with no other choice.

More details will be available at the meeting. Please bring your questions regarding our plans for 2011 and the future. If you have questions unrelated to this issue, please continue to speak with your appointed Land Agent or call 724-743-6700.

Sincerely,

RANGE RESOURCES—APPALACHIA, LLC
